[Some infos regarding](#) henna paint:

Since ancient times henna had been proved as the best material for drum skin decoration.

The reasons for that are:

1. henna don t influence the sound of the drum, don t damp it, because the paint is made with henna paste, which will be removed after 48 hours out of the skin, leaving a trace. Tanin - the natural color inside henna will be absorbed by the drum skin, the process is similar to a soft etching.

2. lifetime of henna paint is as long as of your drum
3. henna paint doesn't fade with the time, in opposite, with the time the color get darker. When the drum is played with hands, the fat of the hands get in contact with henna trace and the color get even more darker.
4. because it is a kind of etching, the henna paint never smears or runs.
